Supply focus

Windows & doors	Aluminium windows, sliding and folding doors, and glazing configurations, sourced through our manufacturing supplier in China.
Furniture & furnishings	Furniture sourcing for project interiors, with options reviewed against the intended use, quantities and order requirements.
Project-specific sourcing	Additional product categories considered against your brief, suitable suppliers and sourcing feasibility.

How we work with your team

Understand the brief. Review supplier options and available documentation. Agree the specifications, responsibilities, timing and commercial scope in writing. Coordinate communication through the agreed supply stages.

We welcome enquiries from procurement teams, principal contractors and commercial project partners.

Supplier experience & enquiries

Our window and door supplier has undertaken projects in Australia, China and the United States. Selected supplier work is shown below.

SUPPLIER PROJECT | RESIDENTIAL GLAZING

SUPPLIER PROJECT | WINDOW INSTALLATION

These are projects undertaken by our manufacturing supplier. Lerova's role is product sourcing, supplier liaison and supply coordination. Product suitability and supporting documentation are reviewed for the proposed configuration and intended application.

What to include in your enquiry

01 Products & quantities

Product categories, model references, dimensions and estimated quantities.

02 Drawings & specifications

Window schedules, finishes, glazing and hardware requirements.

03 Destination & timing

Project location, delivery requirements and target dates.

04 Technical documentation

Reports, product information and performance requirements requested by your project team.

05 Supply responsibilities

The proposed scope, delivery terms and responsibilities to be agreed.

06 Support requirements

Warranty and after-sales requirements for discussion before an order.

Start with your brief.
